Hello and welcome to the Primo education catalogue. Whether you are new to the CMP Morocolor ranges or an existing customer, we have an exciting range of new products and the excellent existing products.

This version of the catalogue has been created by Primo Crafts*, the official UK distributor of CMP Morocolor, and includes the products readily available in the UK.

If the Primo brand is new to you, here is a bit of the background of the CMP Morocolor story.

CMP Morocolor is a family-owned business based in Northern Italy. The company was created in 1933 as a chalk and watercolour manufacturer. Generations later the company has evolved to offer a much larger range of products 'Primo' and 'Hobby and Professional', and these are now sold in 80+ countries.

The Primo range is aimed at young artists and is tested to be fully child safe (2009/48/EC toy safety Directive), but is also of a suitable quality for all artists. Each section of the catalogue has some guidance on the main category page to provide important information about the products, testing and ethics used in the product production and packaging. In some instances, you may need additional information or copies of certification – in these cases please contact us and we can supply the relevant information.

The Hobby and Professional range are aimed at the more accomplished artist from the age of 14+ and are not suitable for younger children and has been omitted from this catalogue. Should you be working with teenagers that require a more professional paint for exam portfolio please contact us and we can supply you a copy of the main product catalogue or please visit the primocrafts.co.uk website.

As a multi generation family company CMP Morocolor are extremely focused on the environment and product quality. The company's production facility is powered by solar energy, the production cleaning processes save on water use and reduce water pollution. Any production waste materials are recycled, and CMP Morocolor encourages long use of any plastic packaging for their products by making them useful to enhance the user experience.

Primo Crafts are part of a 24-year-old family business based in the stunningly beautiful Scottish Borders. We have worked alongside CMP Morocolor since 2020 and are excited to bring a high quality uncompromising range of paint and art supplies to the UK. We particularly enjoy working with our customers and using our expertise to tailor make a range of products to your requirements.

Finally, from the team here at Primo Crafts please contact us if you have any questions, we look forward to working together to supply the talented artists of the world enabling them to create masterpieces and bring joy to us all.

Mark, Catherine and Lynn

*Primo Crafts is a trading name and division of Sco Logic Ltd

————— www.morocolor.it —————

MADE IN ITALY

Colours are part of our family tradition, which began in 1933 with a small white piece of chalk.

Today, we export to more than 80 countries worldwide from our Italian production of PRIMO paint and school and crafts products.

Especially dedicated to young artists, but also perfectly suitable for creative people of all ages.

Our spirit remains as we started: we love our products.

“At this time in history we believe it is impossible to think about the future without considering the well-being of the planet”

PRIMO

Watercolours

A wide range of excellent quality and very long-lasting watercolours.

Each watercolour tablet allows for various covering effects, strong colours if used with little water, and transparent if diluted with a lot of water - ideal for traditional watercolour techniques.

Made entirely in Italy using clean solar energy and respecting the environment using enhanced production cleaning techniques and recycling of waste materials.

The multi-functional packaging design encourages long use and reduces single use plastic waste.

Available in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

PRIMO

Tempera Poster paint

Tempera poster paint is a water-based product that dries with a shiny surface rather than a chalky dusty finish. This makes colours well balanced and offers unlimited shade possibilities.

Tempera been formulated for every age. You can start with Beginner's poster paint which has very bright colours and an excellent washability. Primo Tempera Premium poster paint is rich in texture and quality to obtain excellent covering and opaque effects.

All poster paint versions can be used on paper, cardboard, wood, fabric, glass, terracotta.

The range includes a wide choice of traditional tones as well as metallic, pearlescent and fluorescent colours, to create special effects.

Available in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

Primo poster paint is manufactured entirely in Italy using clean solar energy and is respectful of the environment through enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

50 ml Beginners Poster Paint

Posterpaint, bottle with flow-control nozzle, single colour, 12 colours.

PRIMO

Finger paint

PRIMO finger paint is suitable for all children from birth.

It is safe and DERMATOLOGICALLY TESTED.

It is ready for use as is, and has a soft and smooth texture, which is pleasant to touch. Its consistency is perfect for painting with your hands. The effect is gorgeous. The colour is vivid and remains bright even when it dries.

It can be applied on various materials such as paper, cardboard but also on glass. It is resistant to light and does not fade with time. If you wish a slightly magical and a little dreamy effect, try out pearl finger paint.

To decorate fabrics and clothing there is also textile finger paint.

Produced entirely in Italy with clean solar energy and respecting the environment from enhanced production cleaning techniques and recycling of waste materials.

All packaging is recyclable. Availability in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

PRIMO

Acrylic paint

PRIMO acrylic paint is water based and available in 22 shades, including gold and silver - designed to obtain very bright and vivid effects.

Primo acrylic paint can be easily applied with a brush and once dry colours remain vivid and bright. It adheres to any type of surface. When dry, it does not crack even if applied in multiple layers.

Ideal for children who want to experiment and feel like artists, and can be used with stencils, spatulas and sponges to bring out the creative potential of this paint.

By mixing the colours together new tones can be obtained.

Entirely produced in Italy with clean solar energy and respecting the environment from enhanced production cleaning techniques and recycling of waste materials.

Availability in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

Textile paint & Pens

The PRIMO textile paint follows the nature of fabric with great flexibility. Colours are lively and bright, ready to indulge the imagination for a permanent effect.

It can be applied in a in thick or thin layers, and once dry it remains well covering, with lively and luminous tones. When diluted it can be applied with an airbrush to get a softer hand on the fabric.

Textile paint does not require ironing, but it must be left to dry perfectly for at least 24 hours.

Textile pens are easy to use and produce a bright vivid results. Once you have completed any design, leave to dry for 15 minutes and then iron the design to set the design.

For the best results use 100% cotton fabric.

Available in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

Made entirely in Italy using clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

PRIMO

Wax Crayons

Primo's range of wax crayons and oil pastels offers a wide selection of different sizes and quality to cater for the needs of children: classic, jumbo, triangular and supersoft, dry-erase for whiteboards, water-soluble and oil pastels.

The basic crayons are available in plain stick format and have been formulated to avoid your hands getting dirty. They are also available with an ergonomic sheath that helps with writing.

The jumbo version is ideal for little ones with a wider stick and easy to grip.

Primo offers a wider range of crayons in smaller pack sizes that are fully detailed in the standard catalogue and on www.primocrafts.co.uk.

The wider range of crayons includes:

Dry-erase whiteboard crayons can be used on a variety of different surfaces such as plastic and glass. Primo's whiteboard set with dry-erase crayons provides an excellent portable drawing set.

The watercolour version enables new exciting crayon blending effects.

Supersoft triangular wax crayons are particularly intense and bright, thanks to their shape they facilitate grip. They are soft but resistant, practical to hold and they do not stain.

Oil pastels are created with a smooth texture and deeply pigmented allow for light delicate or thick multi-layer coats. The experience and texture of the artwork can be further enhanced by the use of different paper types.

All Wax crayons and pastels are produced in Italy with clean solar energy respecting the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

PRIMO

Wax triangles

Triangle crayons are one of CMP Morocolor's patents which they have always been proud of.

Wax triangles have been designed to allow perfect hold to draw easily and quickly with the tips, or to obtain volume and blends with the sides. The crayons are also excellent for rubbing, bringing out shapes and textures as if by magic.

Compact and extremely durable, the crayons do not stain hands and are excellent for young children for personal development of early years drawing and colouring.

Made entirely in Italy with clean solar energy, respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

PRIMO

Pencils

Since early childhood, coloured pencils accompany us with their simple, delicate, and poetic strokes.

Available in 36 colours, in a variety of different packs and in many formats: normal and jumbo hexagonal shaped pencils, normal and jumbo triangular shaped pencils, and Minabella pencils.

All pencils are produced using FSC™ certified C113256 wood and we encourage long use of any plastic casing to avoid single use plastics. All packaging is recyclable

“Minabella” pencils are so named because they are particularly beautiful.

Created with a thicker lead - approx 3.8 mm. Minabella pencils are soft, pasty and more resistant. Available in traditional, metallic, and fluorescent colours their tones are very intense and perfect to create special effects and reflections.

The PRIMO pencil sharpener is ideal for both normal and Minabella pencils.

Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

Fibre-tip pens

Primo offer a range of quality fibre tip pens in different sizes suitable for a variety of different artistic techniques:

fine tip suitable for all styles and ages.
jumbo tip for easy grip and as a large marker.
double tip a wide and narrow tip pen
brush tip for artistic blending and fine drawing.

All pens have bright and lively tones, and they are easily washable from fabrics. The fine tip and jumbo pens are also designed to not dry out within 3 days of a cap being left off.

In addition to the traditional range of colours there are also glitter and fluo markers to give a sparkling and luminous effect.

The fibre tip range also extends to Textile markers, ideal for decorating fabrics and clothing.

Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

Modelling material

Easydò is a soft and elastic dough, it is gluten-free, 99% of vegetable origin, vegan and dermatologically tested. Available in a range of bright and vivid colours it enables you to build with your imagination, create with your hands.

Primo Mod, white or terracotta air dry clay, is gluten-free, 98% of natural origin, vegan and dermatologically tested. It is ready to use and dries naturally - not requiring cooking. Once dry, it can be painted and varnished.

Thanks to some creative and fun accessories, it is possible to create three-dimensional puzzles.

Easydò and Mod's design is safe and excellent for personal development from an early age.

Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

All Mod and Easydò is made in Italy with clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

Chalks

CMP Morocolors history invokes an affection closeness to chalk, simple but full of evocation and with special strength. Chalk is the root of the company's history, a special emotional bond remains to it. Chalk may be simple and humble, but it carries a unique fascination and expressive power.

Available in fine stick white or coloured, anti-dust formula and Jumbo sidewalk chalks - calcium carbonate based cylindrical chalks

Chalk is the perfect choice for the youngest artists.

Made entirely in Italy with clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.

MADE IN ITALY

PRIMO

Glue

Primo glues are solvent-free, gluten-free and supplied in recyclable bottles.

Primo glues (glue stick, water-based and vinyl glue) can be used on paper and cardboard; vinyl glue is powerful enough for wood and some fabrics.

The coloured glues are glossy and transparent. Ideal for slime thanks to the activator, but also excellent for experimenting creative effects.

They are easily washable from fabrics.

They all have high adhesive power.

Vinyl glue and water-based glue are produced entirely in Italy with clean energy. PVP glue stick is made in Europe.

Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.

PRIMO

Accessories

The Primo range also contains a range of brushes and accessories to assist in everyday drawing and painting.

The range offers a series of round and flat brushes for poster paint and watercolours for young artists.

Every artist needs a mixing palette and water cleaning. For early years we have a rectangular mixing palette or an oval palette for more experienced artists. Specially designed water cleaning pot is anti-spill and has 2 sections.

Additional accessories include dosage control pump and multi functional storage.

Flat Brush

Bristle flat-tipped brush.
Suitable for oil and
acrylic paint.
